

- 
- A large, industrial-grade siren with two horn-shaped speakers, mounted on a metal pole. The siren is silver-colored and has a robust, weather-resistant design.
- 100-V siren systems for area-wide/plant-wide notification
 - Live voice announcements and pre-recorded alarm signals for life-saving evacuation
 - Flexible and scalable design combined with centralized or decentralized installation – tailored to your needs

INDUSTRIAL MASS NOTIFICATION

FULLY integrated in **PA/GA** solutions
from **INDUSTRONIC** - **ALL** from **ONE** source

- Battery backup as emergency power supply for interruption-free operation
- Full amplifier redundancy ensures highest availability
- Permanent monitoring of all siren lines
- Remote access for control and monitoring
